

Where else can you get a... **guaranteed commercial air test service?**

What are Part L regulations?

The current Part L Regulations came into effect on 7 April 2006 and concentrate on the Conservation of Fuel and Power within new buildings. New buildings require, with few exceptions, an Airtightness Test to a standard of 10 m³ / (h.m²) at 50 Pa.

What does Testing Involve?

An Air Leakage Test will demonstrate to the Building Control Officer or Accredited Inspector that each of the building designs comply with Part L Regulations. It is beneficial to the main building contractor for the test to be carried out as early as possible, so that lessons can be learned and adjustments to design and/or site procedures made before the majority of the buildings are built.

Air Leakage Testing - Services

Energist's Commercial Air Test service guarantee includes:

- SBEM and air testing services all under one roof
- Instant quotation over the phone
- Complete project co-ordination
- UK wide coverage with appointments 24/7/365
- Fully accredited experienced Test Engineers
- FREE on site pre-test inspection
- On site results and paperwork within 24 hours
- Liaison with Building Control on your behalf

We carry out Commercial Air Leakage Tests on a wide variety of buildings including

- Offices
- Industrial units
- Public Sector Buildings
- Schools, hospitals, prisons, MOD
- Cinemas
- Student accommodation

We work with some of the UK's largest companies including

- Kier
- ROK
- Travelodge
- Honda
- Mansell
- Lidl

Our customers tell us that our comprehensive service and Part L expertise make us unbeatable when it comes to providing a complete compliance package.

Pre-test Inspection

Worried the build won't pass the Test? We can arrange a visit from one of our Test Engineers to talk and walk you through the process.

Toolbox Training

Take the stress out of Part L Regulations with on-site training, including demonstrations and walk-throughs whilst the Air Leakage Test is in progress. Feel and see the leaks and discuss with our Technical Manager how to solve problems. Followed by a Q&A session, training can be conducted in a classroom environment too.

How can Energist help?

Our aim is to help you achieve a 'pass'.

- UK wide service, any location, anywhere in the UK
- Pre-inspection Service for your peace of mind
- Fully qualified Test Engineers – we understand your business
- Immediate result on site – we don't keep you waiting
- Test reports within 24 hours
- Credit account on 2nd order – easy to set up
- Toolbox Training – all your site managers trained in one location!

Accreditations

We work hand-in-hand with selfbuilders, small and medium sized companies, and some of the UK's largest Housebuilders & Contractors. We have the following qualifications:-

- Accreditation Certificate SAP Assessment
- 'Competent Persons' Certification
- BINDT Membership
- AINDT Membership
- All Tests completed in accordance with ATTMA
